## Solar curtain wall glass in Aarhus Denmark

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, facade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

What is a spandrel Photovoltaic Glass?

Similarly, Onyx Solar's innovative spandrel glass not only offers a sleek appearance but also generates clean, renewable energy. Traditionally used to cover building structures, our opaque spandrel photovoltaic glass delivers superior energy efficiency with high solar energy yield, thanks to its dense solar cell integration.

What is curtain wall glazing?

The curtain wall method of glazing enables glass to be used in large, uninterrupted areas of a building envelope, creating consistent, attractive facades.
