## Solar panel 9v water pump

What is a 9V solar pump?

Bring your backyard to life with the exclusive AquaJet 9V Pro solar pump kit made by Silicon Solar. Combine both the power of the sun and its integrated backup battery system designed to keep your water feature running into the evening. Adjustable flow and power settings make the AquaJet 9V a perfect match for most home projects.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
