First things first: novotegra mounting systems are ideally suited for mounting photovoltaic systems on tiled roofs. They were specially developed for this purpose. At novotegra, you and your customers can choose between different mounting systems.

What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.

Can a solar module be mounted on a pitched roof?

And: depending on the individual circumstances, such as skylights, chimneys, etc., the solar modules can be mounted both portrait and vertically on the pitched roof. Suitable mounting materials, tools, mounting aids and matching accessories are also part of novotegra's range.
