
Solomon Islands Hospital Solar System Project

What is the hospital like in the Solomon Islands?

This hospital sees the vast majority of the medical cases in the Solomon Islands and is often overstretched, and at times at bursting point. It has close alliances with Australia, and in times of need patients are often flown by aircraft to Australia for expert medical attention. STAFF & CONTACTS

What is the renew Pacific solar hybrid system?

"The REnew Pacific solar hybrid system will empower our students with safer dormitories, extended study hours and access to digital learning tools. It is a monumental step toward a brighter future for education in Solomon Islands," Zeke said.
