
South Africa Uninterruptible Power Supply Specifications and Models

What is a "uninterruptible power supply" in South Africa?

The Uninterruptible Power Supply (UPS) has quickly become part-and-parcel of life in South Africa. Since the first announcement of 'load shedding' in 2008, UPS systems have been adopted into many households. The devices protect valuable electronics from electrical surge/outage damage and have saved families from countless headaches.

What are the different types of uninterrupted power supply (UPS) products?

LEGRAND offers a range of Uninterruptible Power Supply (UPS) products that are divided into 2 different types of products: single-phase and three-phase. The range is wide and complete, with solutions that guarantee maximum performance in terms of power and backup time.
