# Tariffs on the export of solar modules from Krakow Poland

How do US tariffs work in Poland?

The United States imposes tariffs on various goods imported from Poland as part of its trade policies. These tariffs are determined based on the category of goods and are subject to change depending on trade agreements and negotiations between the two countries.

Does Poland have a tariff browser?

The Polish Customs Service (Sluzba Celna) has an official Tariff Browser (a module of the Integrated Tariff System - ISZTAR), that provides information on tariffs of goods in international trade.

What are the effects of import tariffs on Poland?

1. Increased Prices: Import tariffs imposed on Polish goods mean that the cost of importing these products into the U.S. becomes higher. As a result, importers may pass on these additional costs to consumers in the form of higher prices for products originating from Poland.
- 2.

How do I know if a tariff is applicable to Poland?

Importers looking to determine the exact tariffs applicable to goods from Poland should consult the Harmonized Tariff Schedule of the United States (HTSUS) or speak with a customs broker for the most up-to-date information. 2. Are there any specific tariffs or trade agreements that apply to certain industries or products from Poland?
