
Turkmenistan telecommunications operator installs 5g base station

Does Turkmenistan have a 5G network?

By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul . This 5G pilot is an exception - nationwide, Turkmenistan's mobile data operates mostly on slower 3G/4G technologies.

When did 5G start in Turkmenistan?

In February 2025, a 4G+(LTE-Advanced) network was launched in the model "smart city" of Arkadag . By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul .

Will Turkmenistan launch 5G in 2025?

In June 2025, officials claimed to launch 5G in Arkadag as a pilot - making it the first 5G deployment in Turkmenistan . This 5G network reportedly uses the TürkmÄlem-52°E satellite to provide backhaul/frequency, given the lack of a robust terrestrial fiber backbone in that area .
