# Universal smart inverter for home use

Are solar inverters a good choice for your home?

The global transition to renewable energy has made solar inverters a critical component of modern home energy systems. Whether you're looking for an off-grid solution or a hybrid inverter that integrates seamlessly with the grid, choosing the right solar inverter for home use is essential to maximizing efficiency, reliability, and savings.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity.

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

What is a solar inverter?

The solar inverter. It's the behind-the-scenes wizard that turns your panels' raw sunlight juice (DC power) into something your home can actually use (AC power). Pick a dud, and your solar dreams fizzle. Pick a champ, and you're golden.

What type of solar inverter do I Need?

1. String Inverters: The most common type of solar inverter for home use is the string inverter, aptly named because it "strings" your solar panels together into a series. They are ideal for houses that have a single, unshaded plane of roofing and are cost-effective due to their less complex design.
