
Victoria Home Solar Power Systems

What is solar Victoria's Solar Homes program?

Solar Victoria's Solar Homes Program offers rebates and interest-free loans for installing solar panels, batteries and energy-efficient hot water systems to help Victorians save on energy costs. Eligible owner-occupier households can apply for all three incentives.

Why are there so many solar installers in Victoria?

With the great benefit of solar panel systems with the state government rebates, more and more of the homes in Victoria are opting for solar power. This has resulted in a steep increase in the demand of solar installers in Victoria. The concentration of solar systems is mainly seen along the coastal line of Victoria starting around Melbourne.

What are Victorian solar rebates?

Rebates that support Victorians to take control of their energy bills, tackle climate change and build a cleaner, renewable future. The Solar Homes Program offers eligible Victorian households solar panel (PV) rebates and the option of an interest-free loan, and hot water rebates.

How many solar battery systems have been installed in Victoria?

Through solar battery rebates and loans, more than 20,000 solar battery systems have been installed across Victoria. Sign up to our householder newsletter and get the latest renewable energy news, insights and energy-saving tips delivered to your inbox once a month.
