## Western European solar cell components

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

How competitive is the solar photovoltaic (PV) module industry in Europe?

The solar photovoltaic (PV) module industry in Europe is dynamic and highly competitive, with several key players across the supply chain, ranging from module manufacturers to developers and system integrators. European companies are working to ramp up the domestic production.

How many solar modules are there in Europe?

Industry-specific and extensively researched technical data (partially from exclusive partnerships). A paid subscription is required for full access. As of August 2024, there were 55 solar module manufacturers operating in the European Union and Norway. In total, the solar module manufacturing capacity in the region stood at 14.1 gigawatts.

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local ...

Sinovoltaics unveils the 2025 Europe Solar Supply Chain Map, revealing new manufacturers and widespread factory closures. Discover how transparency and verified ...

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). ...

Number of solar PV manufacturing companies in the European Union as of May 2025, by component You need a Statista Account for unlimited access Immediate access to ...

Europe's solar manufacturing sector heavily favours downstream products such as cells and modules, according to ...

Europe's solar manufacturing sector heavily favours downstream products such as cells and modules, according to SolarPower Europe.

Europe Solar PV Module Market Size Europe Solar PV Module Market was valued at USD 63.1 billion in 2024 and is estimated to grow at a CAGR of ...

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active

---

along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to ...

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can ...

Number of solar PV manufacturing companies in the European Union as of May 2025, by component You need a Statista ...

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar ...

Europe Solar PV Module Market Size Europe Solar PV Module Market was valued at USD 63.1 billion in 2024 and is estimated to grow at a CAGR of 7% from 2025 to 2034. A solar ...
