# What are the manufacturers of outdoor wind power base stations in Belgrade

How can wind and solar energy help a green Serbia?

Wind and solar energy for a green Serbia. The MK Group has been recognised for almost a decade as one of the most important producers of energy from renewable sources in the Adria region. As a pioneer in generating electricity from the wind, we opened the first wind farm in Serbia, and our portfolio includes four operating wind farms at present.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Who built the first wind farm in East Serbia?

We built three of them on the territory of Vojvodina, in partnership with Fintel Energija, while the fourth one was built in partnership with the Alfi Renewables investment fund as the first wind farm in East Serbia.

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.
