
Which has more 5G base stations or communications in Brazil

Does Brazil have a 5G network?

Expanding at an impressively rapid pace, Brazil's 5G network has been up and running for one year this Thursday (Jul. 6), as coverage has exceeded the targets set by telecom watchdog Anatel. The technology has upwards of 10 million users and serves over 150 cities countrywide.

Which country has the largest 5G subscription base?

Three-and-a-half years after receiving its 5G licenses, Vivo --Brazil's largest mobile operator by subscriptions--can claim the country's most extensive 5G subscription base. As of May 2025 (the most recent official data available), there were approximately 19.2 million users connected to its 5G Standalone network.

When did 5G start in Brazil?

Brasilia was the first city to have this spectrum released on July 6th, 2022. Coverage with other frequencies: mobile operators in Brazil started operating 5G DSS networks sharing frequencies with 4G in the 2nd half of 2021 and from January 2022 started to use the 2.3 GHz frequency acquired in the 5G auction.
