# Wireless Solar Panel On-site Energy Kit

What is a pole mount solar power kit?

Providing peace of mind to our customers. Pole Mount Solar Power Kits are perfect for powering surveillance equipment in remote, hard to access or off-grid locations. Solar power kits need specific parts to work with certain types and brands of cameras and wireless equipment.

Do solar power kits work with IP cameras?

Solar power kits need specific parts to work with certain types and brands of cameras and wireless equipment. Regardless if your installation calls for a single solar powered PTZ camera, or several IP bullet cameras and a cellular connection our kit powers most IP equipment.

How do I purchase a ventev Wi-Fi Solar System?

For more information or to purchase, contact Ventev: 800.851.4965 or [sales@ventev.com](mailto:sales@ventev.com)  
Ventev's Wi-Fi Solar System is a complete, fully-integrated power enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+power.

What makes a good solar power system?

These rugged systems include proven, long-lasting PSOC lead acid batteries and corrosion-resistant materials to provide many years of autonomous service in even the harshest environments. System sizing is critical to the reliable performance of solar power systems.

Step 2 Select your solar panel power ratings. The panels come in different ratings and the packaging includes the associated mounting kits. Step 3 Select battery options depending on
